STRATEGIC WEAKENING OF RUSSIA- NEUTRALISING RUSSIA's ALLIES.

US-UK-NATO- HYBRID WAR WITH INDIA.

Key Russian Allies and US-UK led NATO neutralisation of pro-Russian nations.

Venezuela – Regime Change and Sanctions.

Iran – Military Action and Sanctions.

China – Sanction – threat of Military conflict with Taiwan.

Burkina Faso – Military Threat and Sanctions.

Syria – Regime Change and Military Threat

India – Military threat from Pakistan, Nepal, Myanmar and China. Sanctions.

North Korea – Sanctions

STRATEGIC WEAKENING OF RUSSIA- NEUTRALISING RUSSIA's ALLIES.

Example- Pakistan.

It is

Prime Minister Khan's visit to the Kremlin in April 2022. PM Khan was questioning Covid policies and was aware of Ukraine's role in Covid and Vaccine related deaths. His open support for Russia was categorically seen as treasonous to the interests of the City of London and Washington.

STRATEGIC WEAKENING OF RUSSIA- NEUTRALISING RUSSIA's ALLIES.

India has been strategically surrounded by hostile states from all directions.

The deep seeds of division with Pakistan have been a major security threat for India since 1947.

For China, India's comparative lack of national integrity and its subservient posture towards any Western nation, turns India into a positive military threat inviting incessant hostile acts by China against India.

Militant groups inside Myanmar have received exorbitant amounts of western financial assistance in exchange of their services to these western US-UK led NATO nations.

In wake of the Ukraine-Russia war, Myanmar has become ground zero for terrorist organisations funded entirely by US-UK led NATO.

Active recruitment of these terrorists to carry out hostile activities in India is done through layers of secrecy so that an official link between the US-UK led NATO nations is not apparent.

This presentation is an indepth presentation of links between Ukraine and acts of terror inside India – funded directly by US-UK led NATO.

WHY IS RUSSIA's WAR – INDIA's WAR (same enemy – NAZI-LED NATO)

The next part of this presentation presents key information which demonstrates, that these captured Ukrainians are not any ordinary <<veterans>>, but are linked intimately with elite wings of the Armed Forces of Ukraine supervised directly by US-UK led NATO and came to Myanmar with specific objective of engaging in acts of terrorism against India.

That covert operations are led and supervised by US-UK led NATO commanders serving within the Ukrainian Army and Elite Special Forces Groups.

These links should leave no doubts in the minds of the Indians, that Ukraine and NATO are no friends to India, but the direct perpetrators of militancy and terrorist incidences inside India.

A counter-drone innovation that I designed and tested has been released by my organization, Sons of Liberty International (SOLI).

This counter-drone weapon, which we call an IAD (Individual Air Defense), is designed to be carried by each soldier in a tactical pouch. It is lightweight and easy to assemble.

Manufacturing and selling the IAD would take time, and time would mean more lives lost. So I took an ethical approach and intentionally made the IAD of commonly available parts, and am releasing the plans for free to Ukraine.

Now every soldier can quickly and cheaply make their own counter-drone solution, and also make modifications and improvements on the original design.

If you support this ethical and charitable approach to battlefield innovation, you can become part of this by making a donation to our 501c3 charitable organization Sons of Liberty International.

Founded in 2014, we have an incredible record of success and have been featured in the media extensively.

We are really struggling financially now, however, and desperately need your support. Every dollar helps.

If you would like to be part of changing the course of history, please make a donation to our charity at the website below.

Chief Minister of Mizoram, Laldhukoma, informed the state legislature-

- * Sharp increase in the number of foreign mercenaries entering the state.
- * Mercenaries primarily from the United States and the United Kingdom.
- * Mercenaries typically used Mizoram as a transit point to travel to the Chin National League in Myanmar, where they served as instructors for the armed forces of the Chin peoples.
- * Not all mercenaries followed this route; many remained in Mizoram and neighbouring Manipur.
- * 2,000 mercenaries passed through Mizoram from June to December 2024.

The captured Operators are -

- * Highly Skilled in Military and Intelligence Operations.
- * Known for creation of specialised assassination squads, launching terrorist attacks and murdering of civilians (Maidan).
- * Known to nurture a Nazi ideologies.
- * Militarily, Diplomatically Backed by Ukraine, US and UK.

* United Kingdom, United States and or NATO, do not prefer to engage in open confrontation with other nations.

* They use Mercenaries, Private Military Contractors and or Terrorist groups to engage in hostile activities against – India, China, Russia and other nations.
This behavioural pattern is evident in the ongoing war of NATO with Russia .

* In the present context, the Armed Forces of Ukraine and its defence and military sector is being used by the UK-US to sponsor direct acts of terror in India.

* In addition, the clear Nazi ideologies held by the captured operators and thence, the state support given to them, begs the question – whether the UK, US and other nations within NATO, are signalling the rise of Nazim through the war with Russia.

CONCLUSIONS & KEY SECURITY INFERENCES FOR INDIA

Ukraine is NATO's Proxy in its war against Russia.

Ukraine and its elite forces especially those with Nazi Ideologies, have been selected by UK-US led NATO to train terrorist groups in Myanmar.

The skill-sets of these elite western terrorist, is a vital clue to the aims and objectives of the States supporting these activities- either directly, or indirectly, through statecraft.

Like in Pakistan, in Myanmar, the terrorist groups are provided with arms, ammunition, training and support by the United Kingdom and the United States in addition to other NATO states.

QUESTIONS ARISE-

* Why are the United Kingdom and the United States interested in neutralising India through provocations from the East?

* To what degree is the Indian Security Apparatus aware of the threat posed to the country, by Ukraine, backed by the United Kingdom and United States?

SECURITY OF INDIA LIES IN BOLDNESS

* India needs to build its joint intelligence and operations abilities through enhanced cooperation within BRICS, which includes military and intelligence cooperation.

* For integrity, Indian government needs to identify the role of Ukraine as that of a militant state being used by NATO, and secure frank dialogue with US-UK in its involvement not only in Myanmar, but also in Pakistan, Nepal and Bangladesh.
