

THE CONGRESS
of
BRITISH PEOPLE WHO ARE IN THE LIGHT

RELEASE

Dated-16th of October 2026.

Public Release.

For

NOT IN MY NAME .

16th October 2026.

To

HIS MAJESTY's ENTITIES -PEOPLE AND INSTITUTES

Not limited to -

The Foreign Office

The Cabinet Office and

The Security Services and Varied Ministries under HIS Majesty's Government.

A. Definitions

1. Agencies

His Majesties Entities (People and Institutes) not limited to the list above and to include any individual or Entity, that has participated or is participating in propelling forward AntiRussianism in any form.

2. The Congress of British People who are in the Light (The Congress).

British People who have come together harbouring grave concerns related to the security of the United Kingdom and its people at the hands of Britain's own Agencies.

Congress includes British people who possess ground-data-backed and experience-led-knowledge of the active role of the Agencies in the deliberate creation of the <<Russia Threat>>, aimed solely at achieving the break up of the Russian Federation at all costs.

2. Purpose of The Release

On behalf of The Congress, this document sets out the Declaration of the Rights of People who:

- (a) Boldly stand against the fabricated war with Russia.
- (b) Firmly oppose all mannerisms of Anti-Russianism.
- (c) Fearlessly speak the truth.
- (d) Pursue dialogue and diplomacy rooted in honesty.

3. Documented Background

- a. The Agencies, intentionally threatened and jeopardised the interests of common people of Britain, through engaging in pre-meditated, professionally orchestrated and executed acts of terrorism and hybrid warfare against another State- namely the Russian Federation, without consulting the public.
- b. Through the usage of military psyops and propaganda techniques, the Agencies have repeatedly used false allegations against the Russian Federation, to create AntiRussian sentiments amongst the target British Public.
- c. Evidence in possession of The Congress establishes, that seeking a kinetic conflict with the Russian Federation through the use of Ukraine, was strategically planned by the Agencies for several decades.
- d. Evidence in possession of The Congress clearly demonstrates how the Agencies invested directly in Ukraine, specifically to en-grain Nazi ideologies in young Ukrainians. That these education programs were funded by the

Agencies with the specific mission to use the trained militant factions as a tool against the Russian Federation.

e. The financial profits generated from the aired war machinery have been lustily harvested by individuals and entities who are favoured by the Agencies, while, the general public has been left to face significant economic hardships.

4. Inference

Hence We, in The Congress conclude, that the Agencies have with complete indepth knowledge, and wilful actions, deliberately risked and gambled the security of the common British people, through the creation of a fabricated Russian Threat.

We Further state - The war which the Agencies have manufactured at great expense of compromised public securities, is a war of the Agencies and not of the People who are in the Light.

We therefore state it with clarity – that the biggest threat to the security of the United Kingdom are the Agencies as named above.

5. Conclusion

It is contrary to the morality of any decent British Individual, that they participate in the Crimes of the unelected and elected Agents of His Majesty, who have worked relentlessly, to imperil the land and lives of common people of Britain.

In matters, where the security of not merely Britain, but the world, has been jeopardised by the actions of the Agencies, through the potential use of nuclear weapons,

We (The Congress)

Hereby Declare,

That guided by the principles of simple humanity in each of us as individuals, we reserve our right not to contribute either directly, or indirectly towards ANY fabricated case of a war effort against the Russian Federation.

And that, it is not up to any power (Entity) to force us to participate in this false and inhumane act orchestrated by the Agencies above.

Signed- The Congress (of British People Who are In The Light).

16th October 2026.
